

FOR PRACTICES, CLINICS & CARE

No more paper shuffling in the waiting room.

Consents, intake and contracts signed digitally — hosted in Switzerland, under your practice brand.

Informed consent, intake forms, privacy and contracts — signed by patients and staff in minutes, legally binding and under your brand.

THE PROBLEM — AND HOW WE SOLVE IT

✗ The reality today

- ✗ **Paper consents — endless shuffling**
Print, have patients fill in, scan, retype. It jams the waiting room and costs time.
- ✗ **DocuSign is expensive — and US-hosted**
Enterprise pricing, and highly sensitive patient data sits outside Switzerland and the EU.
- ✗ **Someone else's brand at reception**
Patients sign in a US tool — not at your practice.
- ✗ **Consent hard to prove**
Was informed consent given fully and on time? Paper leaves no complete audit trail.

✓ With letssign.now

- ✓ **Digital consent, in minutes**
Patients sign on the tablet at reception or beforehand on mobile — pre-filled.
- ✓ **Hosted in Zürich — ZertES & eIDAS**
Health data stays in CH/EU. SES + AES, PAdES-sealed — around 90% cheaper than DocuSign.
- ✓ **Your brand — signing page & email**
Patients sign on YOURPRACTICE.letssign.now — your logo on the signing page and in every email.
- ✓ **Court-proof audit trail**
Every consent with timestamp and certificate — fully documented (liability protection).
