

FOR STARTUPS & SCALE-UPS

# No more contracts that slow you down.

Investor, customer and team contracts signed in minutes — hosted in CH/DE, under your startup's brand.

SHAs, SAFEs, NDAs, employment and customer contracts — to investors, customers and team in minutes instead of days, legally binding and under your brand.

## THE PROBLEM — AND HOW WE SOLVE IT

### ✗ The reality today

- ✗ **Contracts take days — the momentum fizzles out**  
Print, email, chase. In a startup every day counts — with investors and customers alike.
- ✗ **DocuSign blows the startup budget — and it's US-hosted**  
Enterprise per-user pricing, and sensitive investor and customer data sits outside Switzerland and the EU.
- ✗ **Someone else's brand on your documents**  
Investors and customers sign in a US tool — not with your startup.
- ✗ **No clean record for the Cap Table**  
For equity rounds and SAFEs the seamless, verifiable proof is often missing.

### ✓ With letssign.now

- ✓ **Signed in minutes**  
Investors, customers and team sign on mobile — you close while the momentum lasts.
- ✓ **Hosted in Zürich — ZertES & eIDAS**  
Investor and customer data stays in CH/EU. SES + AES, PAdES-sealed — around 90% cheaper than DocuSign.
- ✓ **Your brand — signing page & email**  
Investors sign at YOURSTARTUP.letssign.now — your logo on the signing page and in every email.
- ✓ **Court-proof audit trail**  
Every equity round and contract with timestamp and certificate — clean for the Cap Table.
